

Policy for Memorial Donations

The Board of Directors established rules for donating trees or other items in memory of loved ones who have passed away.

1. The donation must be approved by the board.
2. The placement location must be approved by the board.
3. If a plaque is desired, it must be of the same type and size as those already installed and must also be approved by the board and provided by the donor.
4. The board will be the final authority in resolving any issues that arise.
