

9/29/2020

In addition to Tom's post about Covid and safety, if you need to be tested, you can call the health department in Sebring at 863-382-7201 or go to the CVS website and set up an appointment at CVS to be tested. If you are sick, or traveled with anyone who is sick, please self-quarantine for 14 days.

We will get through this together!!!

Thanks, Krabby Patty

I have had several phone calls from folks who want to know how to handle a situation when someone wants to hug them, or being too close for comfort. Well, you all have my permission to use my name. Step back and tell them that Krabby Patty said we need to social distance. You can protect yourself by wearing your mask and setting boundaries for yourself.

Thanks, Krabby Patty
